A Rare Find Is This Special Apartment

It is not often that you find a sizeable apartment occupying half of the upper level in a small group of only 3 apartments.

Here it is with the benefit of it being positioned all along the north side for sunshine and natural light with three private balconies.

The location is also brilliant, one that provides for being able to take a level walk into the CBD, just as handy are Town Beach, Library and swimming pool.

Having a modern bathroom also adds to the appeal value on offer here.

Other notable features are the spacious living space, large main bedroom, an extra-long garage and a separate, secure storeroom.
