

14 & 16 The Jib, PORT MACQUARIE

What A Find ? Rare As Hens Teeth!

What a rare find, vacant blocks of land that are level and located in an established neighbourhood so close to all amenities.

Not only are these lots level for economical building, they are also a generous size (771sqm and 765sqm). Having extra size allows for more design options as well as space for a real backyard.

You'll love the convenience of living in this area where it's only minutes to the local Shopping Centre, Settlement City, Medical Centres, schools, TAFE and on the bus route.

These lots are available to buy separately or for those requiring adjoining properties. Give Greg a call today to get all the facts.
